5:30 p.m. – 7:00 p.m.	Right to Repair	Paul Hyatt	International Centre

TIRE PRESSURE MONITORING TECHNICIAN TRAINING COURSE

TIA's TPMS Training Program is designed to provide technicians with a basic understanding of how different types of systems interact with the vehicle. It also includes the various types of service that techs will need to perform in order to maintain the system. Since most TPMS utilize a valve stem sensor and many include run-flat tires, special attention is given to the step-by-step procedures for handling these assemblies. The Program also covers recalibration guidelines for many popular models and includes an appendix with relearn summaries and installation torque values for valve stem sensors.

A workbook will be provided and a certificate issued.
Wednesday September 26 8:30 am to 12:00

Member Cost: \$50.00 per student

OTDA Trends Conference Keynote Speaker **David Chilton**

Thursday 10:30 a.m. – 11:45 a.m.

Dave Chilton is back. The author of Canada's all-time bestselling book, *The Wealthy Barber*, has returned to speaking after a five-year absence. For close to a decade Chilton was among the most sought-after speakers in North America. His unique combination of knowledge and humour helped to take the intimidation and dryness out of financial planning. You won't want to miss what he has to say now at the OTDA Trends Conference following the Hall of Fame Breakfast!

REGISTER FOR THE OTDA TRENDS CONFERENCE

Members registering for the TRENDS Conference will get a special Automechanika trade show registration code qualifying them for one complimentary seminar at the trade show above the three that are included in the standard registration.
